Subject: Intimation of revision/reaffirmation of Credit Ratings under the SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015.

Dear Madam/Sir,

With reference to the above-mentioned subject and pursuant to Regulation 30 of SEBI (Listing obligations and Disclosure Requirements) Regulations, 2015, we wish to inform you that Care Ratings Limited, a Credit Rating Agency, has revised/reaffirmed the ratings for the following facilities of the Company:

Facilities/Instruments	Amount (Rs. Crore)	Ratings	Rating Action
Long Term Bank Facilities	65.00 (Reduced from 70.50)	CARE BBB; Stable	Revised from CARE BBB-; Stable
Short Term Bank Facilities	70.00 (Reduced from 80.00)	CARE A3	Reaffirmed
Long Term Bank Facilities	-	-	Withdrawn
TOTAL	135.00 (Rupees One Hundred and Thirty- Five Crore only)		

Kindly note that details of Long Term Bank Facilities as disclosed in the previous rating dated July 31, 2023 which was disclosed to you vide our letter dated August 1, 2023 included Term Loan of Rs. 0.35 Lakhs which has been repaid by the Company as on March 31, 2024, and hence the same has been separately disclosed as withdrawn.

The Press Release dated August 1, 2024, issued by the credit rating agency is enclosed.

This is for your information and records.

Thanking You,
For Ceinsys Tech Limited

Pooja Karande
Company Secretary &
Compliance Officer
Place: Nagpur

Encl: As above

Ceinsys Tech Limited

August 01, 2024

Facilities/Instruments	Amount (₹ crore)	Ratings ¹	Rating Action
Long Term Bank Facilities	65.00 (Reduced from 70.50)	CARE BBB; Stable	Revised from CARE BBB-; Stable
Short Term Bank Facilities	70.00 (Reduced from 80.00)	CARE A3	Reaffirmed
Long Term Bank Facilities	-	-	Withdrawn

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

The revision in the ratings assigned to the bank facilities of Ceinsys Tech Limited (CTL) takes into account the improvement in scale of operations and profitability during FY24 (refers to period April 01 to March 31). The ratings further continue to derive strength from CTL's long track record of operations, experienced management, healthy order book position, comfortable financial risk profile and adequate liquidity position. The ratings also take a note of CTL's plans to raise funds via issuance of equity shares and fully convertible warrants.

The rating strengths, however, continue to remain constrained by concentrated customer profile and order book, working capital-intensive nature of operations and presence in a highly competitive industry.

CARE Ratings Limited (CARE) has withdrawn the outstanding ratings of 'CARE BBB-; Stable' assigned to the term loan of CTL with immediate effect. The above action has been taken at the request of CTL and 'No Dues Certificate' received from the lender that had extended the facility rated by CARE.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Total operating income above ₹450 crore annually on a sustained basis along with improvement in PBILDT margin to above 22%
- Improvement in average collection period (including unbilled revenue) to less than 150 days

Negative factors

- TOI below ₹225 crore on a sustained basis along with deterioration in profit margins
- Elongation in collection period beyond 270 days resulting in deterioration in liquidity position

Analytical approach: Consolidated

CARE Ratings has considered consolidated financials of CTL. The consolidated approach factors in significant management, operational and financial linkages between CTL and its subsidiaries and step-down subsidiaries. The list of entities consolidated is given in Annexure-6.

Outlook: Stable

The stable outlook reflects CARE Ratings Limited's (CARE Ratings') expectation that the company will continue to benefit from experienced management, healthy order book and comfortable financial risk profile in the medium term.

Detailed description of the key rating drivers:

Key strengths

Improved scale of operations and profitability

Consolidated total operating income (TOI) increased by 14.70% from ₹220.52 crore in FY23 to ₹252.94 crore in FY24, driven by higher inflow and execution of orders. Standalone TOI improved by 23% to ₹205.68 crore in FY24 from ₹167.04 crore in FY23. CTL's 'Geospatial' business revenue witnessed a growth of ~23%, while 'Manufacturing Solutions' segment revenue declined by ~10% during FY24. The growth momentum is expected to persist, fuelled by the execution of current orders and the anticipated inflow of new orders.

On a consolidated level, PBILDT margin improved to 17.42% in FY24 from 15.43% in FY23 resulting from better absorption of fixed costs. The PAT margin declined marginally to 13.84% in FY24 (PY: 14.01%) owing to higher tax outflow. The profitability margin is expected to remain steady in the near to medium term.

¹Complete definition of the ratings assigned are available at www.careedge.in and other CARE Ratings Ltd.'s publications

Well-established track record and extensive experience of management in the industry

CTL has a track record of more than two decades in the industry, offering GIS and Engineering Solutions. CTL specializes in designing, capturing, storing, mapping, analysing and managing all types of geographical data.

CTL is promoted by Mr. Sagar Meghe (Chairman and Director) and is jointly managed by Mr. Prashant Kamat (Vice Chairman and CEO), Mr. Abhay Kimmalkar (Managing Director) and Mr. Kaushik Khona (Managing Director, India Operations). All of them are well qualified and experienced professionals. The company has a diverse team of engineers across multiple disciplines with significant experience in various industries, tools/platforms and project management methodologies.

Healthy revenue visibility backed by significant improvement in its order book position

As on June 30, 2024, CTL has an outstanding orderbook (consolidated) of ₹748.45 crore, which is 2.96x of FY24 TOI (1.52x of FY23 TOI as on June 30, 2023). This indicates adequate revenue visibility in the medium term. Majority of the contracts are secured from state governments, municipal bodies and public sector units, with a few from corporate entities. CTL is likely to benefit from government's focus on areas like urban development, water management and energy security.

Comfortable capital structure and satisfactory debt coverage indicators

The debt profile of the company mainly comprises of working capital borrowings, term loan, advances from customers and lease liabilities. As on March 31, 2024, CTL's capital structure improved and remained comfortable with an overall gearing of 0.05x (PY: 0.33x) owing to lower utilization of the working capital limit as on balance sheet date and accretion of profits to reserves. In the absence of any debt funded capex, the capital structure is expected to remain comfortable over the medium term.

In FY24, the debt coverage indicators also improved with total debt/GCA of 0.30x (PY: 1.98x) and interest coverage of 9.36x (PY: 3.50x) due to improvement in profitability and lower total debt as on balance sheet date.

Capital raising plans through issue of share warrants and equity shares on a preferential basis

As per the special resolution approved in the EGM dated April 29, 2024, the company plans to raise funds through a preferential issue of fully convertible share warrants and equity shares. The total expected proceeds of ~₹243 crore, will be utilized for strategic business acquisitions, expansion of existing business operations and working capital requirements. CTL's ability to integrate its acquisitions and to generate the expected synergies will be a key monitorable.

Key weaknesses**Concentrated order book and customer base**

CTL's order book remains concentrated with top ten orders accounting for around 80% of outstanding order book value, thereby exposing the company to concentration risk. Also, the customer base is concentrated with the top 10 clients contributing to around 55% of TOI in FY24. The counterparty risk is mitigated by the company's long-term association with reputed clients.

Working capital intensive nature of operations

CTL's operations remain working capital intensive, emanating from high collection cycle and sizeable portion of unbilled revenues. CTL derives a major proportion of its revenues from government contracts, where the credit period ranges from 120 days to 150 days. Furthermore, invoices are raised on a milestone basis, leading to unbilled portions of revenue. Although the average collection period improved in FY24, it remained high at 236 days (PY: 283 days). Timely realization of receivables is critical from credit perspective.

Presence in a highly competitive industry

The IT & ITES industry is highly competitive, with both established and emerging companies striving to create their own niches. Furthermore, the industry is vulnerable to the rapid evolution of advanced technologies. In this industry, majority of the contracts are awarded by central and state government bodies through a tender process and are milestone-based, leading to significant working capital requirements.

Liquidity: Adequate

The liquidity position remains adequate as marked by annual gross cash accruals of ₹50-55 crore against annual repayment obligations of ₹2.50 crore over FY25-FY27. As on March 31, 2024, free cash and bank balance stood at ₹11.08 crore.

The average maximum and average utilization of fund-based limits stood at around 54% and 40% respectively for the twelve months ended May 31, 2024. The average maximum utilization of non-fund-based limits stood at around 82% for the twelve months ended May 31, 2024.

About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
